ADVICE TO MEMBERS ON DECLARING INTERESTS AT MEETINGS

If you are present at a meeting of the Council, of its executive or any committee of the executive, or of any committee, sub-committee, joint committee, or joint sub-committee of the authority, and you have a **Disclosable Pecuniary Interest (DPI)** relating to any business that will be considered at the meeting, you must not:

- participate in any discussion of the business at the meeting, or if you become aware of your Disclosable Pecuniary Interest during the meeting, participate further in any discussion of the business, or
- participate in any vote or further vote taken on the matter at the meeting.

These prohibitions apply to any form of participation, including speaking as a member of the public.

You **must**:

- leave the room (in accordance with the Members' Code of Conduct)
- make a verbal declaration of the existence and nature of any DPI at any meeting at which you are present at which an item of business which affects or relates to the subject matter of that interest is under consideration, at or before the consideration of the item of business or as soon as the interest becomes apparent.
- declare it to the meeting and notify the Council's Monitoring Officer within 28 days, if the DPI is not already registered.

If you have any of the following pecuniary interests, they are your **disclosable pecuniary interests** under the new national rules. You have a pecuniary interest if you, or your spouse or civil partner, have a pecuniary interest.

- Any employment, office, trade, profession or vocation carried on for profit or gain, which you, or your spouse or civil partner undertakes.
- Any payment or provision of any other financial benefit (other than from your council or authority) made or provided within the relevant period* in respect of any expenses incurred by you in carrying out duties as a member, or towards your election expenses. This includes any payment or financial benefit from a trade union within the meaning of the Trade Union and Labour Relations (Consolidation) Act 1992.

*The relevant period is the 12 months ending on the day when you tell the Monitoring Officer about your disclosable pecuniary interests.

- Any contract which is made between you, or your spouse or your civil partner (or a body in which you, or your spouse or your civil partner, has a beneficial interest) and your council or authority –
 - under which goods or services are to be provided or works are to be executed; and
 - which has not been fully discharged.

- Any beneficial interest in land which you, or your spouse or your civil partner, have and which is within the area of your council or authority.
- Any licence (alone or jointly with others) which you, or your spouse or your civil partner, holds to occupy land in the area of your council or authority for a month or longer.
- Any tenancy where (to your knowledge) –
 - the landlord is your council or authority; and
 - the tenant is a body in which you, or your spouse or your civil partner, has a beneficial interest.
- Any beneficial interest which you, or your spouse or your civil partner has in securities of a body where -
 - (a) that body (to your knowledge) has a place of business or land in the area of your council or authority; and
 - (b) either -
 - the total nominal value of the securities exceeds £25,000 or one hundredth of the total issued share capital of that body; or
 - if the share capital of that body is of more than one class, the total nominal value of the shares of any one class in which you, or your spouse or your civil partner, has a beneficial interest exceeds one hundredth of the total issued share capital of that class.

If you attend a meeting at which any item of business is to be considered and you are aware that you have a **personal interest** in the matter which does not amount to a DPI, you must make verbal declaration of the existence and nature of that interest at or before the consideration of the item of business or as soon as the interest becomes apparent. You should leave the room if your continued presence is incompatible with the 7 Principles of Public Life (selflessness; integrity; objectivity; accountability; openness; honesty; and leadership).

You have a personal interest where –

- a decision in relation to that business might reasonably be regarded as affecting the well-being or financial standing (including interests in land and easements over land) of you or a member of your family or a person or an organisation with whom you have a close association to a greater extent than it would affect the majority of the Council Tax payers, ratepayers or inhabitants of the ward or electoral area for which you have been elected or otherwise of the Authority's administrative area, or
- it relates to or is likely to affect any of the interests that are defined as DPIs but are in respect of a member of your family (other than a partner) or a person with whom you have a close association.

Guidance on declarations of interest, incorporating regulations published by the Government in relation to Disclosable Pecuniary Interests, has been circulated to you previously.

You should identify any potential interest you may have relating to business to be considered at the meeting. This will help you and anyone that you ask for advice to fully consider all the circumstances before deciding what action you should take.

In certain circumstances the Council may grant a **dispensation** to permit a Member to take part in the business of the Authority even if the member has a Disclosable Pecuniary Interest relating to that business.

To obtain a dispensation, you must write to the Monitoring Officer at least 48 hours before the meeting in question, explaining why a dispensation is sought and desirable, and specifying the period of time for which it is sought. The Monitoring Officer may consult with the Independent Person or the Council's Standards Committee in relation to a request for dispensation.

Further advice can be obtained from Gillian Duckworth, Director of Legal and Governance on 0114 2734018 or email gillian.duckworth@sheffield.gov.uk.

Category of Report: OPEN

**REPORT OF THE CHIEF LICENSING OFFICER,
HEAD OF LICENSING TO THE LICENSING SUB COMMITTEE**

REF No: 63/16

**LOCAL GOVERNMENT (MISCELLANEOUS PROVISIONS) ACT
1982**

**STREET TRADING – STATIC STREET TRADING CONSENT –

1.0 PURPOSE OF REPORT

1.1 To consider an application for the grant of a Static Street Trading consent for the City Centre.

2.0 INTRODUCTION

2.1 The Council as a Licensing Authority have power under the provision of the 1982 Act to regulate Street Trading in the City.

2.2 A Street Trading Consent is required to trade on any Street (which includes roads, footways, forecourts, or other areas to which the public have access) within the Sheffield City Boundary.

2.3 The Licensing Committee at its meeting of 29th January 2002 passed the following resolution:

1. That under the provisions of schedule 4 of the Local Government (Miscellaneous Provisions) Act 1982:

- (a) all streets (which includes roads, footways, forecourts or other areas to which the public have access) within the Sheffield City boundary, shall be designated consent streets and;
- (b) such street trading designation shall take effect as from the 1st April 2002; and
- (c) all previous designations in relation to street trading will be rescinded as a result of the designation set out above.

2. The effect of this resolution is that from 1st April 2002, it will be an offence to engage in street trading in any street or any other place identified in the above resolution without being authorised to do so by consent from the City Council.

2.4 A Local Authority may attach conditions to a Street Trading Consent. The conditions may include conditions to prevent obstruction of the street and danger to persons using the street or nuisance or annoyance.

2.5 A Street Trading Consent may only be granted for a maximum period of twelve months.

2.6 There is no appeal procedure against the refusal or revocation of a consent. An applicant may, however apply for judicial review of the Council's decision.

3.0 THE APPLICATION

3.1 The joint applicants are Mr Ian Pointon and Mrs Natalie Thomas and a copy of the application and supporting documents are attached at Appendix 'A'.

3.2 The application was submitted on 13th May 2016.

3.3 The application is to sell burritos, falafel, burgers, breakfast sandwiches, stews and casseroles from a catering trailer on Devonshire Green in the City Centre.

3.4 The application was circulated for consultation in the usual manner, to the City Centre Management Team, South Yorkshire Police, South Yorkshire Fire and Rescue, Highways and Planning on 17th May 2016.

3.5 Comments have been received from Lucy Bond, Planning Development Team Manager on the 20th May 2016 that the application does not meet the City Centre Qualitative Criteria for Street Trading. A copy of the e-mail is attached at Appendix 'B'.

3.6 Members are to note that the specific location will be agreed in conjunction with the City Centre Management Team and Highways Department so as not to cause obstruction on the highway to other road users as well as to consider safety of the operator / applicant and consider any events that fall within the City Centre.

3.7 The applicant has been invited to attend the Licensing Committee hearing. Copies of the invites are attached at Appendix 'C'.

3.8 A copy of the hearing procedure is attached at Appendix 'D'.

4.0 REASONS FOR REFERRAL

4.1 The application has been referred to the Licensing Sub-Committee for their consideration as the proposed trading unit does not meet the city centre qualitative criteria. A copy of the qualitative criteria attached to this report at Appendix 'E'.

4.2 Section 3.1.13 of the Street Trading Policy states that all city centre street trading applications must be placed before the Licensing Committee for determination.

4.3 Currently our city centre Street Trading Policy at section 3.1.6 states that specific areas have been allocated for the City Centre and this refers to only specific sites which have been agreed and allocated as suitable. This has been agreed in consultation with the City Centre Management Team and the Planning Department. Currently those site are:

- Howard Street – Currently allocated to trader selling Coffee
- Tudor Square – Currently allocated to trader selling Hot Food
- Barkers Pool – Currently allocated to trader in the evening selling Hot Food

5.0 FINANCIAL IMPLICATIONS

- 5.1 The Street Trading Policy states that fees will be set and reviewed annually on a full cost recovery basis. The level of fee takes into account the location, duration of consent, the trading hours and articles to be sold as well as the enforcement of terms and conditions.
- 5.2 The current fee for City Centre Street Trading is £1994.00 per annum, if granted payments can be made quarterly if agreed with the Authority.
- 5.3 The applicant has paid the £100 non-refundable application fee which will be deducted from the balance if this application for a static pitch were to be granted.

6.0 RECOMMENDATIONS

- 6.1 That Members consider all the relevant information available and any representations that may be made.
- 6.2 Members are also noted that any applications which fall within the city centre boundary, should also consider the City Centre Qualitative Criteria for Small Trading Stalls that can be found at Appendix 6, pages 38-39 of the Street Trading Policy.
- 6.3 Members should consider all the information provided by the applicant both in their written application and in person at the hearing.
- 6.4 Members are to also note section 2.8 of Street Trading Policy when determining this application, in particular sections 2.8.2
- Public Safety / Highway sections (b) & (d)
 - Appearance of the unit sections (a) & (b)
 - Number of Street Trading Consents (a)

7.0 OPTIONS OPEN TO THE COMMITTEE

- 7.1 To grant the application for a Static Street Trading Consent within the City Centre.
- 7.2 To defer the matter for further consideration.

We are Olive's Kitchen.

We cook good quality tasty food from organic and high welfare sources.

The trailer is powered by solar and gas so no need for any generators causing noise or pollution.

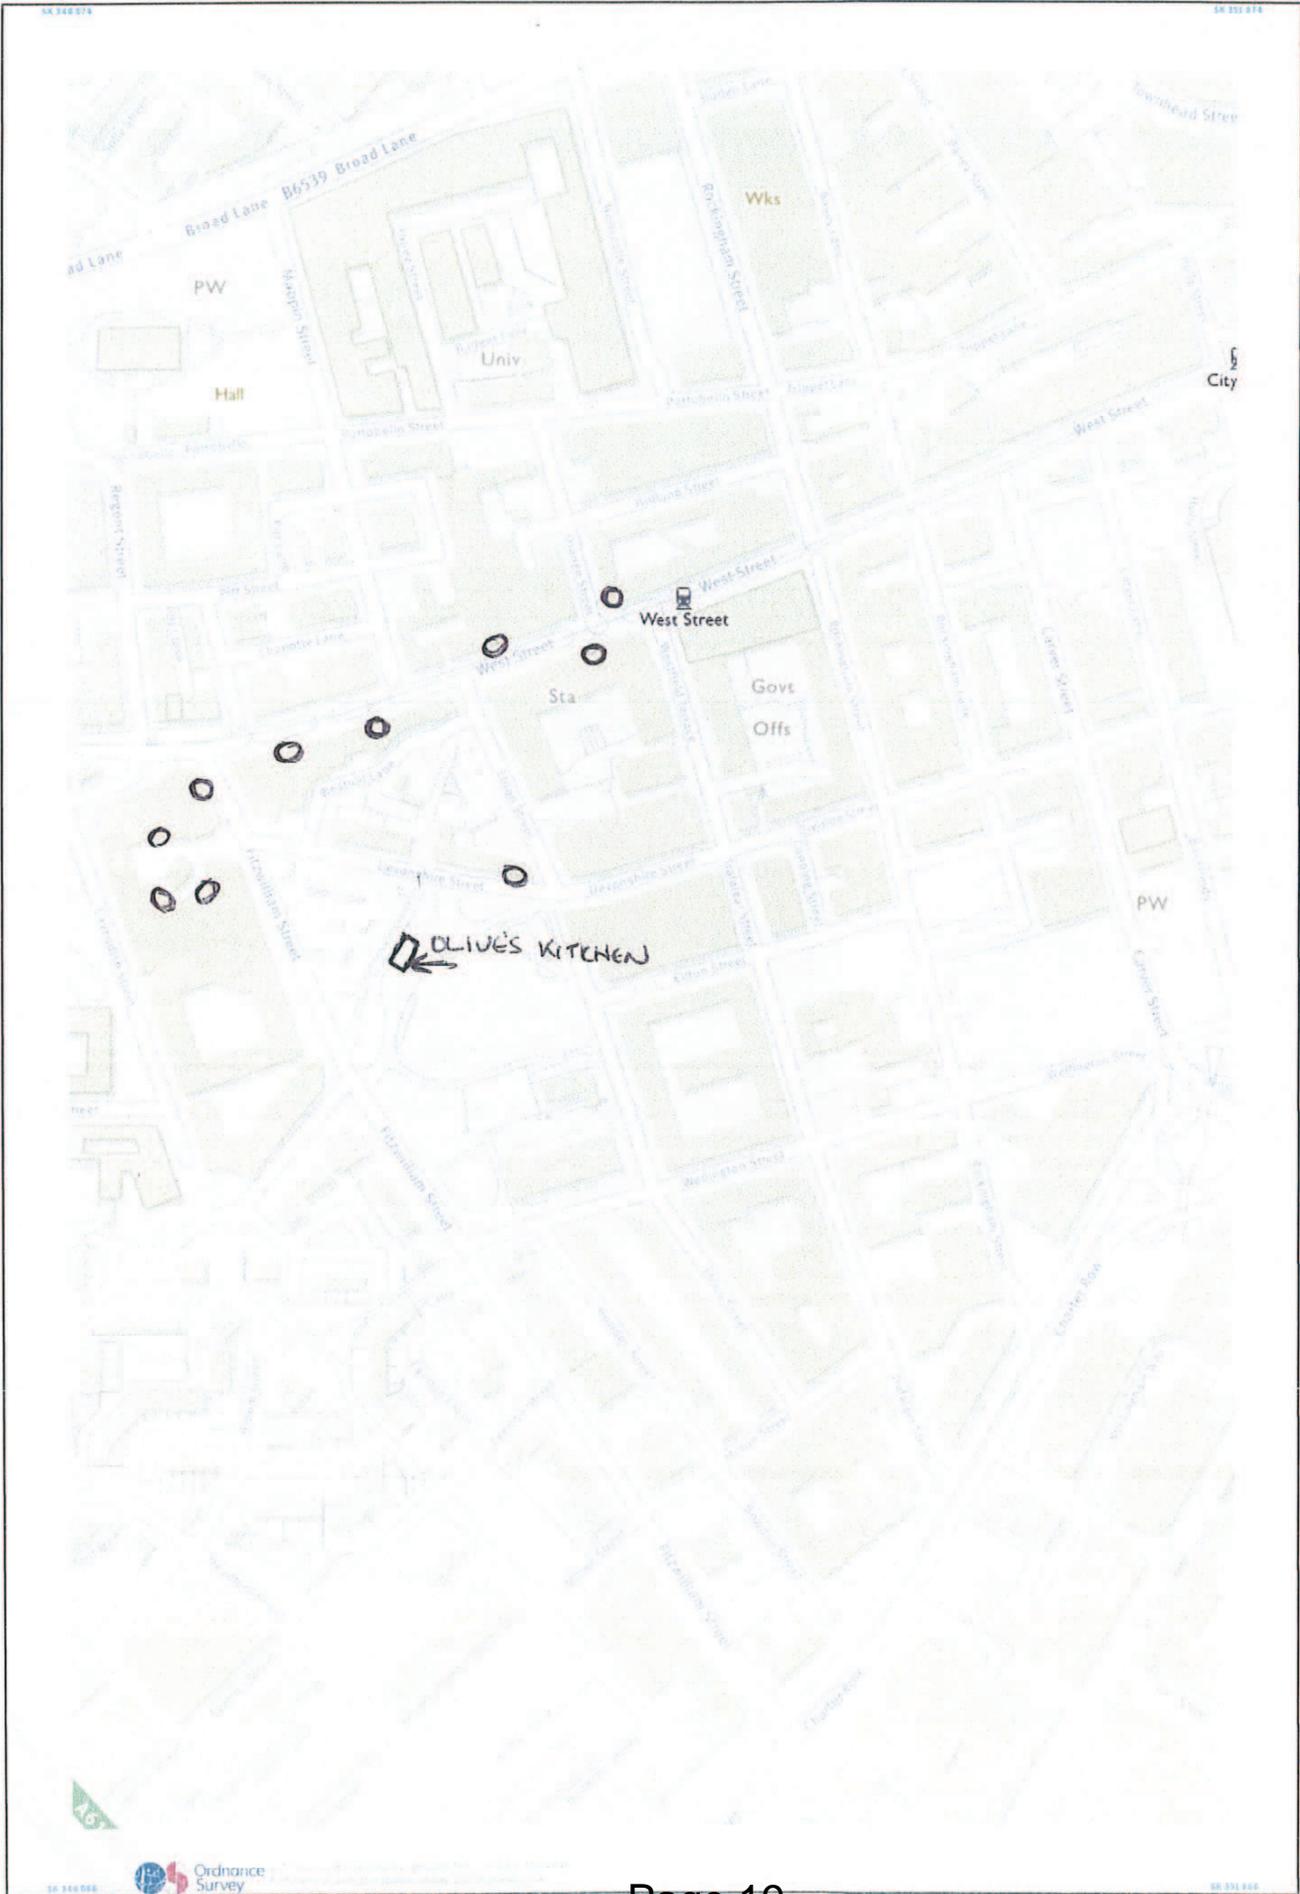

There is no oil or fat waste as this is recycled and used to power our vehicles.

We would really love the opportunity to trade in the city, if the areas we have asked for are not available, if you could please advise where would be suitable.

Licensing,

I refer to the above application.

It is not possible to comment on this proposal without seeing a site plan but my initial view is that this does not meet the city centre qualitative criteria in any event.

Please ask the applicant to provide a scaled site location plan.

APPENDIX 6 - CITY CENTRE QUALITATIVE CRITERIA

CITY CENTRE STREET TRADING Small Trading Stalls

BACKGROUND

Street activities are an essential ingredient of a vibrant and lively city, and in Sheffield there is a strong demand for legitimate small scale trading pitches. They also offer an opportunity for small businesses to get started with relatively modest outlay.

The widening of footways offers the opportunity to designate more pitches in locations that will add to the attractiveness of the City Centre. In Orchard Square and Meadowhall 'Barrow' style stalls are used extensively, enhancing the colour and vitality of those places.

This scheme is part of the City Council's campaign to make Sheffield City Centre a more attractive and vibrant place. Set out below is the qualitative criteria which forms the basis on which to test applications for the grant of designated small trading stall Street Trading Consent sites within the City Centre.

QUALITATIVE CRITERIA – SMALL TRADING STALLS

GENERAL DESIGN

- There will be no motorised vehicles or stalls etc. permitted as part of this scheme.
- All barrows/handcarts must be capable of being moved on and off site by hand and any vehicles used to bring the barrows/handcarts to the site must be parked, loaded and unloaded off site.
- Good display is an important part of the selling process and top quality presentation encourages purchase and benefits the retailer reputation.
- It is in the best interest of traders to produce a high quality design in their barrows/handcarts. The function of the stall is to identify the trader and add vitality and colour to the immediate area, and reflect the quality, cleanliness and order in their operation. The barrow/stall contributes to the appearance of the street for good or bad, so design matters to everyone who uses the street, as well as the operator.
- Sign writing and scrollwork must be finished to a standard acceptable to the City Council.
- The unit must be visually acceptable to the City Council (this will include the Head of Licensing, City Centre Manager and Planning Service) and be in keeping with the street/area that it is to be located.
- Advertisements on stalls will not be permitted except by permission of the Council in writing and subject to further conditions. The Council shall be the sole judge of what is an acceptable advertisement.
- The Council will reserve the right to not renew any consent where it considers the

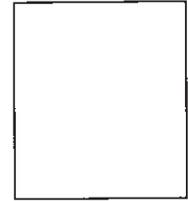

product(s) offered by the operator are not in keeping with the requirements of the site and the promotion of the City Centre.

- Non functional elements attached to barrows / handcarts, are not acceptable.
- The general design of the barrow/handcart must meet the requirements of the Council for that location.
- Flame retardant 'skirts' are to be used if necessary, so as to obscure the frame, gas bottle etc. They should be designed to 'unify' the barrow/handcart.
- All equipment, tools, gas bottles etc. must be self contained within the stall/handcart etc.
- Bright colours and a sense of fun are encouraged.
- Finished in flame retardant paint.
- A colour photograph or scale illustration of the proposed handcart must be submitted to the Licensing Service as part of the application process.
- No barrow/handcart should have a frontage greater than 3.0 metres or a width greater than 2.0metre.
- Roofs should be no more than 2.5m above ground level.
- Pitched and curved roofs are encouraged.
- Canopies should be high quality with a feeling of 'permanence'. These could be manufactured from either stretched canvas, or woven material, opaque or light metal materials. Clear plastic awning and extensions to the canopy will not be acceptable.
- Canopies must be maintained and cleaned to a high standard.
- Food traders must ensure that any stall design satisfies the requirement of food safety legislation. Staff must be adequately trained in good hygiene (Basic Food Hygiene Certificate and regular on going training) and records of training must be made available on request.
- Best practise of food hygiene must be adopted by the operator. This covers:
 - Personal hygiene
 - Hand washing
 - Ill health
 - Prevention of contamination
 - Temperature control
 - Temperature monitoring
 - Cleaning
 - Storage and stock rotation
 - Procedures in the event of freezer breakdown
 - Site cleanliness
 - Waste disposal
 - Pest control
 - Quality control
 - First aid facilities
- Food traders must have a minimum food hygiene rating score of 3.

Parking, Highway, Access and Servicing

Access to the site is from Hillfoot Road, accessible by road or footpath. There is parking for approx. 4 cars in front of the unit, 6 along the side, a further 8 shared adjacent to the unit and an adjacent car parking area for common use, approx. 50 yards away. This car park can hold up to 40 vehicles and seems currently to be only used by 2 or 3, so there is a good capacity for client parking – see the annotated location maps.

Access to the unit by vehicle is to the roller shutter door, and pedestrian access is level to the side entrance.

The unit is serviced by mains electricity (3 phase supply), mains gas, water and sewage.

Design

The unit has recently been refurbished by the landlord and is very light and airy with good natural light from clear panels in the roof which have all been recently replaced or cleaned.

The roller shutter door is in good working order.

The unisex WC is of a large size with no restrictions to wheel chair use.

Dear Miss Murphy

As the responsible authority for public safety, it is with regret that I feel I have no alternative than to make a formal representation (objection) to this application on the grounds of public safety.

The plan submitted with the application is unsatisfactory and does not show any information. It is therefore impossible to assess the public safety implications from the range of licensable activities applied for.

During a meeting held with you at the premises on 6th June, numerous concerns were raised with respect to the licensable activities applied for and the premises itself.

Could we meet to discuss this current objection?

Thank you
Sean

Licensing Act 2003

Objection to premise licence application

Crossfit SC1, Unit 8 Farfield Industrial Estate, 12 Hillfoot Road, Sheffield

On behalf of the Chief Constable of South Yorkshire, an objection is being made in relation to the above application.

The grounds of objection are based on public safety, prevention of crime and disorder and prevention of public nuisance. Following conversations with the applicant little clarity has been provided in relation to how the premise will operate. The hours requested appear excessive for the area and type of building which could potentially give rise to public nuisance. The applicant has failed to advise how they will successfully uphold the four licensing objectives and operate the venue safely.

The applicant suggested amending the application to reduce permissions however, this does not appear to have been completed.

Yours faithfully,

For and on behalf of

Chief Constable, South Yorkshire Police

Dear Rachel,

I represent Sheffield City Council's Environmental Protection Service (EPS). EPS are the Responsible Authority for the Prevention of Public Nuisance for this new premises licence application.

I only received details of your application yesterday lunchtime, so was not able to attend the meeting yesterday. However, I have discussed the meeting with my colleague Sean Gibbons from SCC Health Protection Service, who I understand voiced his significant concerns about your current application in relation to public safety.

Having looked over the details of your application form, and the attached pictures, I too must advise you that I would have no alternative but to object formally to your application if it stands as it is now. Furthermore, my view is that the scale of sound insulation and/or sound limiting equipment installations that would be required to enable you to pursue your current proposals would likely to be prohibitively expensive for the business model you currently propose.

My advice at this early stage is to reconsider your application. It may be that through a combination of unlicensed activity, and the use of Temporary Events Notices for those elements which are licensable, you can achieve much of what you propose without the regulatory complications of your current plans, which essentially set you up with a licence to be a full blown nightclub with extras.

I look forward to hearing from you when you have had a chance to consider the advice you have received from myself and other Responsible Authorities.

Kind Regards,

Neal Pates

RE: LAC2003 Premises Licence Grant Application – CROSSFIT SC1, UNIT 8, FARFIELD INDUSTRIAL ESTATE, 12 HILLFOOT RD, SHEFFIELD S3 8AA
EPS REF: 575755

This emailed representation is made in accordance with the agreement with the Licensing Authority on the 18th October 2006 to accept representations by email.

Dear Miss Murphy,

You will be aware from previous correspondence (below), and our discussions regarding the same, that EPS have concerns over the high potential from public nuisance from the operations as proposed under this current grant application for a premises licence at Crossfit SC1, Unit 8 Farfield Industrial Estate. The proposal for late night and 24 hour weekend operation of a full range of regulated entertainments in a building with minimal sound insulation provisions and no proposals for sound limiting equipment is likely to cause high levels of music noise breakout. There is also no lobby system for the doors, so noise breakout will occur whenever the doors are open for access/egress, including when smokers go in and out the building.

I am concerned that, even in consideration of the non-residential character of the immediate vicinity, the high potential for noise will be likely to cause public nuisance in the late evening and night time, when background noise levels are low. The construction of the building is likely to have a very poor sound reduction performance, particularly at lower frequency ranges. This service often receive noise complaints from bass beat frequencies travelling great distances when loud music is played into the night time at high levels in the open air or inside poorly attenuated structures.

I had understood from our conversation on 21st June that you would be submitting a substantially revised version of this application in consideration of the issues raised both by other RAs and myself. However, since this has not been forthcoming **I must now notify you of my formal objection to this application**, and my intention to oppose the application as it stands, should this matter progress to a hearing by the SCC Licensing Sub-committee.

If you have any questions regarding this representation please do feel free to contact me directly.

For the attention of the Licensing Authority

This e'mailed representation is made in accordance with the agreement with the Licensing Authority on the 18th October 2006 to accept representations by e'mail

Please be informed that I have made a representation on behalf of the Sheffield Safeguarding Children Board in relation to the above application. The representation is set out below and attached is related correspondence for the consideration of the Licensing Sub Committee.

REPRESENTATION

The Safeguarding Children Board has assessed the above application and notes that the proposed premise is sited on an industrial estate. The applicant seeks to host event including children and young people, and whilst the applicant has stated in the operating schedules that security and age restrictions will be in place where appropriate, this is not further defined.

In order to ensure that adequate risk management processes are in place for the protection of children from harm, the Safeguarding Children Board proposes that the following licence conditions are attached to the licence, if granted by the Licensing Authority:

1. The Designated Premises Supervisor, or other such responsible person, will be assigned to act as the Children's Safeguarding Coordinator. This person is responsible for undertaking and documenting risk management procedures at the premises in relation to the protection of children from harm. This person should act with reference to the training and guidance issued by the Sheffield Safeguarding Children Board.

2. The Children's Safeguarding Coordinator must produce a written risk assessment in relation to all events or activities involving persons under the age of 18 and this will be made available for inspection by the responsible authorities on reasonable request.

The above measures would ensure that there are suitable safeguarding measures in place during times under 18's have access and would provide measurable and enforceable conditions for the protection of children from harm.

Please note that free training is available to support the role described in condition (1) above and I attach for your consideration a description of this role along with a copy of the free training offer sent to the applicant.

I will liaise with the applicant and try to resolve the issue without the need for a formal Hearing.

Thank you.

Business Continuity Planning

There are many disruptive incidents that could cause a severe disruption to your business activities, which in turn can cause major adverse effects for yourselves, employees, customers and the community. Disruptive incidents could include fire or flooding. To help minimise these effects on your business you should take steps to ensure that you have a Business Continuity Plan (BCP) in place.

If you do nothing else then you should consider completing a Business Impact Analysis (BIA) to identify your critical activities and which people, places, and processes are critical to the continuance of business activities.

There are many ways of completing a BIA. The type of business you carry out and the size of your business may determine the style of BIA which you utilise. There are many free BIA templates and examples available on the internet.

If you would like to take your BCP a stage further then you may wish to consider the use of a BCP software solution.

South Yorkshire FIRE & RESCUE

As the owner/manager of licensed premises you may be the 'Responsible Person' and as such you have a **duty to comply with legislation relating to Fire Safety** within your premises. The legislation which applies is the Regulatory Reform (Fire Safety) Order 2005.

You will be the 'Responsible Person' if you are:-

- The employer, or
- The person who has control of the premises in connection with the carrying on of a business, trade or undertaking, or
- The owner

This legislation imposes duties upon the 'Responsible Person'. These duties include but are not restricted to:

- Carry out a Fire Risk Assessment.
- Record the significant findings of the assessment and the control measures which have been or will be taken by the responsible person.
- Provide adequate 'General Fire Precautions'.
- Provide adequate training to staff.

Please see the attached note which gives basic guidance regarding these duties and responsibilities. Under this legislation an Authorised Inspector from the Fire Authority can, at any material time, inspect the premises and require the production of the Fire Risk Assessment. They will ask to see any other documentation relating to the Responsible persons duties under the Regulatory Reform (Fire Safety) Order 2005. The Inspector will also ask to see details of testing and maintenance of fire provisions including staff training and drills.

Further information with regards to the duties and responsibilities in order to comply with the Law relating to Fire Safety in licensed premises is available to download from:

General Fire Precautions

Fire risk assessment:

The fire risk assessment should:

- Identify fire hazards e.g. electrical equipment, heat processes, flammable substances etc.
- Identify people at risk e.g. staff, members of the public, people with disabilities.
- Evaluate the Risk from fire occurring e.g. accidentally, failure to prevent, deliberately.
- Remove /reduce Hazards e.g. portable heaters, waste materials, reduce storage.
- Protect People from risk e.g. early warning of fire, control occupancy, staff training.
- Record the Significant Findings of the fire risk assessment.
- Prepare a plan to deal with emergencies to ensure the premises can be safely evacuated.

- **Inform, Instruct and Train** all staff to prevent fire and what to do in case of fire.

Fire risks and preventative measures:

The following should be seen as examples of what to consider as preventative measures:

- **Good housekeeping will reduce the risk of fire.**
- **Excessive storage can block escapes and create additional fire hazards.**
- **Electrical safety can prevent fires by regular inspection and testing.**
- **Managing building work and alterations can prevent fire as additional hazards and processes may be introduced.**
- **Arson can be prevented by good waste management and good security awareness.**

Fire detection and warning:

It should be identified if there are places within the premises where people may be isolated and could be trapped by fire due to being unaware of its development.

There may be areas where a fire can develop unobserved.

An adequate fire alarm system should ensure that in these areas, the fire will be detected and the alarm raised in order to give early warning of fire to occupants of the premises.

The fire alarm system installed should be tested weekly by the responsible person and should be serviced six monthly.

Fire fighting equipment:

Appropriate Fire fighting equipment e.g. fire extinguishers, fire blankets etc, should be provided for premises. This equipment should be suitably sited, usually on escape routes and near to exits. However dependent on your fire risk assessment it may be more suitable to place them in secure locations. The fire extinguishers should be serviced annually also checked visually for damage and pressure loss monthly by the responsible person.

Escape routes:

- Escape routes from the premises should be easily, safely and immediately (no locked final exit doors) usable at all relevant times.
- Escape routes and exits should be adequate for the number of people likely to use them.
- If only one door is available, regardless how wide it is, to escape from any room the occupancy of that room should be limited to 60 persons.
- All doors should open in the direction of escape.
- Where fire doors are fitted they should be fitted with self closing devices, in good order and capable of resisting smoke.

Occupancy:

The occupancy of all parts of premises should be such that everyone should be able to safely evacuate without undue delay.

A rule of thumb guide for working out the occupancy of premises is based on the door widths that are available for people to escape from. This information is taken from Approved Document B which is a Communities and Local Government Document relating to Building Regulations. The rule of thumb guide is as follows:

- Door width 750mm will allow 100 people to escape
- Door width 1050mm will allow 200 people to escape

Other factors can come into calculating the potential occupancy for premises.

Emergency Lighting:

Emergency lighting should be provided in order to light escape routes adequately to allow people to escape from the premises should the mains power fail in the event of fire. The lighting may be on all the time (maintained lighting) or it may only illuminate if the power fails (non maintained lighting). Emergency lighting should be serviced annually and tested by the responsible person monthly.

Fire signs:

Fire exit signs should be displayed so that anyone in the premises can make their way out of the building without any confusion.

Fire action notices (what to do in case of fire) should be displayed to give guidance to all employees regarding the evacuation procedure for the premises.

Recording, Planning, Informing, Instructing and Training:

Up to date records of your fire risk assessment should be kept along with your servicing and maintenance records for any structure or systems related to the buildings fire safety measures e.g. fire alarm testing and servicing, fire door maintenance etc.. Fire drills should also be undertaken and recorded.

All employees should be given instruction on the actions to take if a fire is discovered or the fire alarm actuates. Employees should sign a document to show that they have received and understood this instruction.
