## Selecting Scrutiny topics

This tool is designed to assist the Scrutiny Committees focus on the topics most appropriate for their scrutiny.

- **P**ublic Interest  
The concerns of local people should influence the issues chosen for scrutiny;
- **A**bility to Change / Impact  
Priority should be given to issues that the Committee can realistically have an impact on, and that will influence decision makers;
- **P**erformance  
Priority should be given to the areas in which the Council, and other organisations (public or private) are not performing well;
- **E**xtent  
Priority should be given to issues that are relevant to all or large parts of the city (geographical or communities of interest);
- **R**eplication / other approaches  
Work programmes must take account of what else is happening (or has happened) in the areas being considered to avoid duplication or wasted effort. Alternatively, could another body, agency, or approach (e.g. briefing paper) more appropriately deal with the topic

### Other influencing factors

- **Cross-party** - There is the potential to reach cross-party agreement on a report and recommendations.
- **Resources**. Members with the Policy & Improvement Officer can complete the work needed in a reasonable time to achieve the required outcome
