

Mr. P. L. Morton

Ref. LS/RC/77454 '25/9/16'

Hi,  
Following a letter I received from your  
Richard Leannon, I wish to object  
to the Preservation Order No 412 (2016)  
referring to trees No T1 to T7 that  
run along the side of my property at

These trees have been neglected  
by the school & council over many  
years & all have branches hanging  
over my property.

I brought my objections to your  
John Stoddard & he tells me that T1  
is still on council land & not on  
the land sold to Ancient Homes &  
shouldn't have been put on the  
preservation order.

I can understand all the other trees  
been put under the preservation order  
to protect them from the builders  
that bound Hastings & Abbeydale Rd  
but, T1 - T7 will have a path  
put in by the builders between these  
properties & the trees.

I hope my objection can be taken seriously as I have had to trim all three trees since I bought the property in 1983.

The wall bounding trees T2-T7 was council property but looking at Avonk plans they now have responsibility for most of it but around tree T2 it shows the council have retained responsibility for a short section. I can somebody send me a copy of the length of wall the council is still responsible for. (Council had to rebuild approx 8 ft of wall around T4-T5)

Regards,  
P. G. Morton
