Report of the Head of Neighbourhood Intervention and Tenant Support Service

Hate Crime

1. Introduction/Context

1.1 The Safer and Stronger Communities Scrutiny and Policy Development Committee set up a cross-party group to review hate crime and hate incidents occurring in Sheffield. The group agreed to concentrate efforts on: To understand the different ways hate crime is reported in Sheffield and to increase awareness of Hate Crime in Sheffield.

1.2 This report will provide members with an update on what is currently being carried out via partnership working to address hate crime and hate incidents in Sheffield. The report provides members with an overview of the current national picture in relation to Hate Crime and an overview of Hate Crime reported in Sheffield.

2. Main body of report, matters for consideration, etc.

2.1 The main body of the report will cover the following areas:

- Community Safety Partnership Hate Crime Coordinators Update
- Hate Crime Reporting – National Update / Sheffield Update
- Community Safety Partnership - Hate Crime Priority Group Update

2.2 Community Safety Partnership - Hate Crime Coordinator

The Partnership Hate Crime Coordinator is now in post and has access to both South Yorkshire Police and Sheffield City Councils Computer Systems. On a daily basis both of these systems are interrogated by the coordinator in order to identify the following:

- Any trends in hate crime reported in the previous 24hrs in Sheffield
- To identify any emerging community tensions within Sheffield that is Hate Crime Motivated.
- To identify repeat victims, locations or suspects relating to Hate Crime within Sheffield.

- To have an awareness of Hate Crime issues throughout South Yorkshire

In addition to daily monitoring of Hate Crime in Sheffield the Hate Crime Coordinator is tasked with producing weekly and monthly written reports. These reports are vital in determining how best to utilise resources and address current issues in a timely and appropriate manner.

One of the main objectives of the Hate Crime Coordinator has been to raise awareness and to develop a better understanding of Hate Crime and how it affects our communities here in Sheffield.

To date this year the coordinator has organised and carried out over fifty hate crime initiatives in Sheffield with various organisations. These events have been in the way of hate training sessions to professionals, hate awareness raising events and attendance in school assemblies to educate students how hate crime is committed and the effects of hate on victims, families and Communities.

The coordinator has been influential in creating and developing the Hate Crime Priority Group during 2019.

Ongoing Work

Sheffield Hate Crime Community Reporting Centre's

During 2020 the partnership coordinator will ascertain the current position of all centres and ensure that those that are still in place have the correct support and appropriate Hate Crime Training to ensure all reports are correctly recorded and investigated appropriately.

South Yorkshire Police are currently reviewing their internal processes in relation to Hate Crime and Hate Crime Incidents that are directly reported to them. The police hate crime working group are keen to ensure that a quick, timely and adequate response to all Hate Crime is implemented to ensure victims are seen rapidly following an incident.

The coordinator is commencing work with partners in developing Sheffield Safer Places Scheme. This scheme will identify specific locations throughout Sheffield where those who are vulnerable are more likely to attend and openly discuss Hate Incidents. The plan is for this to be in place by October 2020.

2.3 **Hate Crime Reporting / Methods of Reporting**

- 2.3.1 Sheffield Community Safety Partnership has provided funding to Stop Hate UK to provide the hate crime reporting line in Sheffield during 2019 (0800 158 1625).

In summary the Helpline during quarter two of 2019/20 have received a total of 21 contacts in Sheffield. Six of those contacts have reported Hate Crimes where the motivations were **Disability, Gender identity, Race, Sexual Orientation and Other** aspects of personal identity. The callers reported being subjected to **Verbal Abuse and Threatening Behaviour**. Average length of call being 10 mins.

So far this year 64% of contacts have been made into the helpline outside during normal working hours. The number of reports made to Stop Hate UK since being commissioned in 2017 has steadily increased.

The recommendation going forward would be to continue the funding to Stop Hate UK. The rationale to continue the funding is that not all crimes/incidents of Hate are reported directly to the police by those affected. Therefore, this data will capture numerical information that may not be reported via the police. Therefore, a comparison of reported Hate Crime over a specific period of time can be undertaken.

2.3.2 **National Hate Crime Reporting – The Bigger Picture**

The most recent Home Office release of Hate Crime in England and Wales (2018/19)¹ shows a continued increase in the number of hate crimes recorded by police in comparison to previous years.

In 2018/19, there were over 100,000 hate crimes recorded in England and Wales, showing a +10% increase on the previous year (approximately 94,000 offences). Year on year increases in hate crimes recorded have been observed, and figures have more than doubled since 2012/13 (approximately 42,000 to over 100,000 offences in six years).

Increases over the last five years are likely to have been driven by crime recording improvements by the police. However, growing awareness of what constitutes a hate crime may also have impacted on the number of recorded offences. Short term genuine rises in hate crime recorded have also been noticed following terrorist attacks and events such as the EU Referendum in 2016.

Nationally, around three quarters of offences (76%, approximately 78,000) were race hate crimes. Around 12% of these incidents were flagged with more than one motivating factor, which were most commonly race and religion.

Nationally, the most commonly targeted religion in hate incidents flagged as motivated by religion was against Muslims (47%). Offences against Jewish people accounted for around 18% of religious hate crimes.

2.3.3 Reported Hate Crime South Yorkshire

There were 2602 Hate Crimes and 330 Hate Incidents recorded by South Yorkshire Police during the year period Jan 2018 – Dec 18 making a total of 2932 during this period overall.

88% (2602) of these were crimes and 12% (330) were recorded non-crimes.

During the same period of Jan 19 – Dec19 recorded crime in South Yorkshire was 2727 Hate Crimes and 399 Hate Incidents making an overall total of 3126.

These recorded figs show the following for 2019

- 87% (2727) of the total are Hate Crimes an increase of 125
- 13% (399) of the total are Hate Crime Incidents an increase of 69

A total increase of 194 report of Hate incidents.

Where hate was flagged as motivated by religious hatred, the most commonly perceived religion recorded was Muslim. Hate incidents against perceived Christian, Jewish and Other/Unknown religious beliefs were also recorded.

2.3.4 Crime Survey for England and Wales

The Crime Survey for England and Wales is unaffected by changes in police recording practices and less likely to be affected by victim willingness to report. However, due to a lower proportion of the population having experienced a hate crime, survey years have to be combined to give a large enough dataset for analysis. This means short term trends cannot be analysed.

In contrast to the police recorded data, the Crime Survey appears to show a decrease in hate incidents experienced by adults (aged 16+) between the 2007/08/09 and 2015/16/17/18 surveys. This decrease has fallen from over 307,000 incidents to 184,000 (-40%).

2.3.5 Reporting Hate Crime in Sheffield

Anyone can be a victim of Hate. Hate Crime or incidents can take place anywhere and at any time. Victims or witnesses can report via:

- Call 101 for non-emergency / 999 in an emergency
- If person reporting is deaf or hard of hearing or speech impaired text **18001 101** or SMS **07786 220 220**
- Visit or contact a local Hate Crime Reporting Centre
- Online Reporting via website True Vision or Stop Hate Crime UK

Further guidance can be found on Sheffield City Centre Website and also on southyorks.police.uk/hatehurts.

2.4 **Hate Crime Priority Group**

The Hate Crime Priority Group is in place and functioning.

The group reports directly into Sheffield Community Safety Partnership.

The group have met three times since their inception.

Chair is still developing membership.

The group aims and objectives are:

- To Develop a Citywide Strategy for Hate Crime
- To respond to any gaps in relation to Hate Crime Victim and Community Provision
- Create an Action Plan relating to Hate Crime / Incidents
- Work in Partnership to address all Emerging Trends relating to Hate Crime in Sheffield and to carry out Community Consultation in relation to Hate Crime in Sheffield.

3

- 3.1 The people of Sheffield will see that hate crime and hate crime incidents are being addressed in full partnership across the whole of the City. The work of the Hate Crime Coordinator is far reaching throughout Sheffield and this will only grow in the coming months / years ahead. The ongoing work of the Priority Group will involve more integration of members from numerous communities and community consultation will be a main driver for this group. The methods of reporting hate crime is still developing with the overall aim of gaining the communities confidence in reporting all aspects of Hate Crime.

4. **Recommendation**

- 4.1 The Committee is asked to:

- Note the contents of this report and
- To provide feedback / members viewpoint relating to Hate Crime
