Introduction

The free Modern•Gov app automatically downloads meeting papers for your subscribed committees, supporting your organisation's commitment to reduce its reliance on paper. A wide range of annotation tools allows you to mark-up documents as easily as if they were on paper. The app complements your existing Modern•Gov website, intranet and/or extranet.

This easy-to-use app offers free access to publicly-available meeting papers from any organisation using Modern•Gov's decision management system to support its democratic, governance and transparency processes.

Organisations can also purchase additional restricted services to provide allowed users secure access to its internal or restricted meeting papers and to access the in-app voting features.

The app runs on any Windows 10+ device meeting the following system requirements:

1. Minimum: Windows 10 Fall Creators Update (10.0; Build 16299 or higher), 2GB Memory
2. Recommended: Windows 10 Fall Creators Update (10.0; Build 16299 or higher), 4GB Memory

Glossary

Agenda Front Sheet	Coming Soon: The front cover of any agenda, available as a standalone document without any supporting papers. Particularly handy for those running the meeting so they can have the agenda cover in front of them at all times.
Agenda Pack	The full agenda, including the cover and all reports, available as one document.
Document	Catch-all term for all the files published to the app by an organisation, regardless of whether they are documents, spreadsheets, images, presentation slides or other file types.
Home Screen	The app's main menu – the first screen you see when it opens.
Long-Press or Long-Click	If using a touchscreen, lightly press and hold your finger or stylus on the screen. If using a mouse, click and hold the left mouse button.
Restricted	<p>Anything which is not publicly available. This could refer to an organisation which uses the app for internal meetings but does not publish anything onto its public-facing website ('restricted organisation').</p> <p>It could also be used in relation to documents from a public organisation which have access restricted to certain users in accordance with relevant legislation or rules (e.g., a report dealing with an employment matter).</p> <p>Access to restricted information must be enabled by the organisation providing it.</p> <p>If you have access to restricted organisations, committees and documents, they will appear in menus against a pink background to differentiate them from publicly-available information.</p>
Starred	Documents you have marked as important to you by tapping / clicking a star icon.
Supplement	Additional papers to accompany the agenda, decisions or minutes, like an item of urgent business which has arisen after the agenda had been published.
Views	A menu on the left-hand side of the app's home screen which helps you quickly find the documents you want.

What's New

The original app launched nearly a decade ago. Since then, we've kept it updated regularly and listened to feedback from our customers to add improvements, and the time has now come to launch a brand new version. If you have the older version on your device, don't worry: both can be run simultaneously for the time being – the original version won't be discontinued immediately.

Why switch? Here's what the new app offers:

	Original App	New App
Automatic download of agendas, reports, decisions and minutes, supplementary meeting papers and Library documents.		
Document library for non-meeting information.		
Document library appears as a distinct menu item, rather than in the list of committee names.		
Automatic download of agenda front sheet as a separate document.		
Open multiple documents at the same time and from different meetings (and from the document Library) – a maximum of 10 documents may be open at any time.		
Quickly find documents from: What's New / Recently Published, Annotated, or browse by committee name.		
Quickly find documents from above options and from: Upcoming, Recently Opened, Unread or Starred.		
In-app calendar to browse meetings by date.		

	Original App	New App
Toggle between all meetings / just meetings with documents.		
Tap or click to expand / collapse list of documents available for a meeting.		
User-defined default settings to expand all / collapse all lists of documents available for a meeting.		
Long-press or long-click meeting name to open all available documents at once.		
Document navigation using page forward / page back buttons.		
Document navigation using 'Jump to Page Number'.		
Document navigation using thumbnail images to jump forwards, backwards or to any page.		
Document navigation using bookmarks created by the user.		
Advanced document navigation tools using bookmarks and free text search within a document.		
Advanced document navigation using annotations as bookmarks.		

	Original App	New App
Open other documents from this meeting without returning to main menu.		
Annotation tools – scribble, underline or highlight text, add sticky notes.		
Advanced annotation tools like insert text boxes and insert signature, and new options to select, edit, move and delete annotations.		
Remember last-used annotation settings.		
Remember last-viewed page when re-opening document.		
Pinch-to-zoom document view.		
Fit document width to screen.		
Fit document height to screen.		
Automatic document zoom to best fit screen rotation.		
User-defined in-document scrolling preferences: horizontal or vertical.		

	Original App	New App
Share original document – whole document, page range or single page (public documents only).		
Share document with annotations – whole document, page range or single page (public documents only).		
Open / save document in another app on your device.		
Delete document from device.		
Two-factor security.		
ADFS integration to reduce the need for multiple passwords.		
Subscribe to multiple publishers.		
Searchable document publisher list.		
Subscribe to multiple committees.		
Searchable committee list.		

	Original App	New App
Pin / Star important documents for easy identification and retention.		
Automatically delete documents from device at end of user-defined default document retention period.	 Up to 2 years	 Up to 5 years
Remote lock / wipe of device.		
Welsh Language.		
In-app Voting (restricted app only; chargeable feature)		
Quick switch from Modern.Gov to Microsoft Teams (restricted app only; bundled with In-app Voting module)		

Getting Started

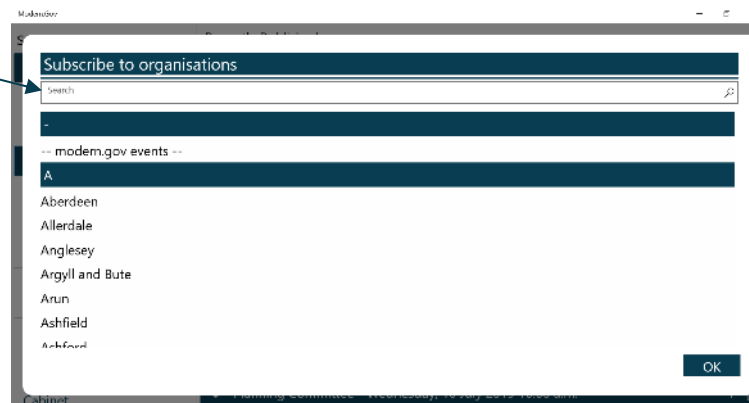

Search for “Modern•Gov” on the Microsoft Store and download the free app.

The Modern•Gov app appears on your home screen. Tap or click the icon to open the app:

Select at least one organisation to follow. **Swipe down / click and drag down** anywhere on the screen to refresh the list at any time.

Tip: use the **search bar** at the top:

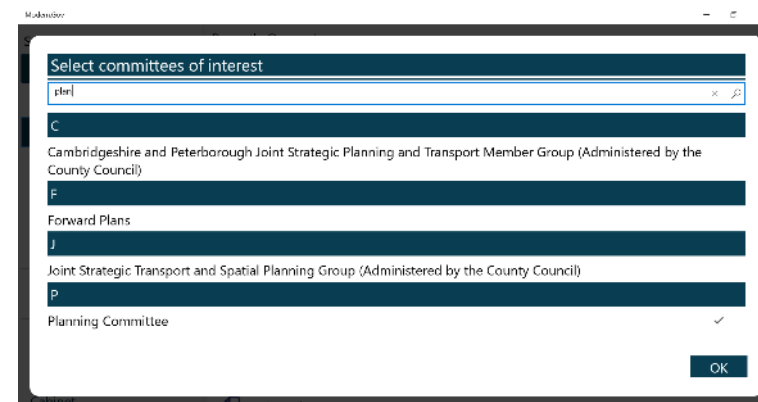

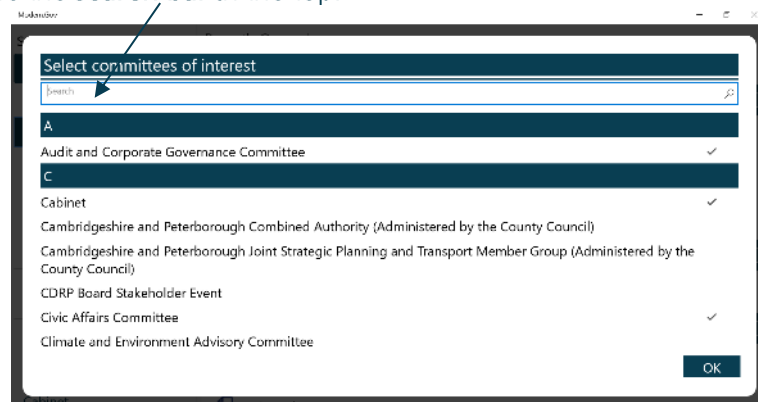

Tap or **click** an organisation name to select it.

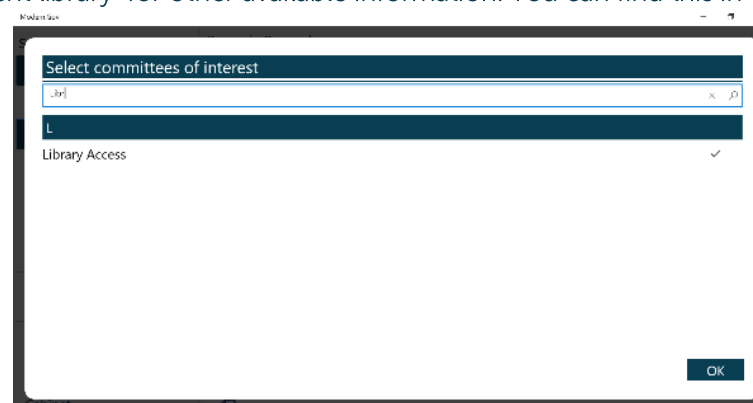

Tap or **click** OK to confirm your selection(s). Subscriptions can be changed at any time from **The Settings Menu**.

The organisation's list of committees will appear. Select committees to follow. **Swipe down / click and drag down** anywhere on the screen to refresh the list at any time.

Tip: use the **search bar** at the top:

Your organisation might also have a document library¹ for other available information. You can find this in the committee list:

¹ Organisations choose their own name for this document storage feature; most use a variation on 'library'. If you cannot find it, please ask the organisation if they provide one and, if so, what they call it.

The Home Screen (Main Menu)

The app opens in its home screen:

The screenshot shows the CIVICA app interface with several callout boxes:

- See document 'views'.**: Points to the top navigation bar.
- Document 'views': tap or click any view to help find papers quickly**: Points to the list of document views (Upcoming, Recently Opened, Recently Published, Unread, Starred, Annotated).
- Library (non-meeting) documents and links**: Points to the Library Access section.
- Committee subscriptions. Tap or click name to see papers from only one committee**: Points to the list of committees (Audit and Corporate Governance Committee, Cabinet, Civic Affairs Committee, Council, Planning Committee, Scrutiny and Overview Committee, Weekly Bulletin).
- Tap or click to switch to calendar view.**: Points to the calendar icon in the top navigation bar.
- Settings Menu**: Points to the gear icon in the top right.
- Coming soon: Filter results**: Points to the filter icon in the top right.
- Meeting details. Tap or click this bar to expand or collapse the list of documents below. Set your default display preference (expand all / collapse all) in The Settings Menu**: Points to a meeting header bar.
- Number of documents available for this meeting**: Points to the document count in a meeting header bar.

Additional document icons:

Document has annotations (will show in the Annotated view from the left-hand menu)

Document is starred and has annotations (will show in both the Starred and Annotated views from the left-hand menu)

Document is starred (will show in the Starred view from the left-hand menu)

Documents begin downloading automatically for your subscribed committees:

...or long-press / long-click the meeting details bar to open all the documents for that meeting:

Tap or click a document icon to select it. Document Management Options appear (see next page):

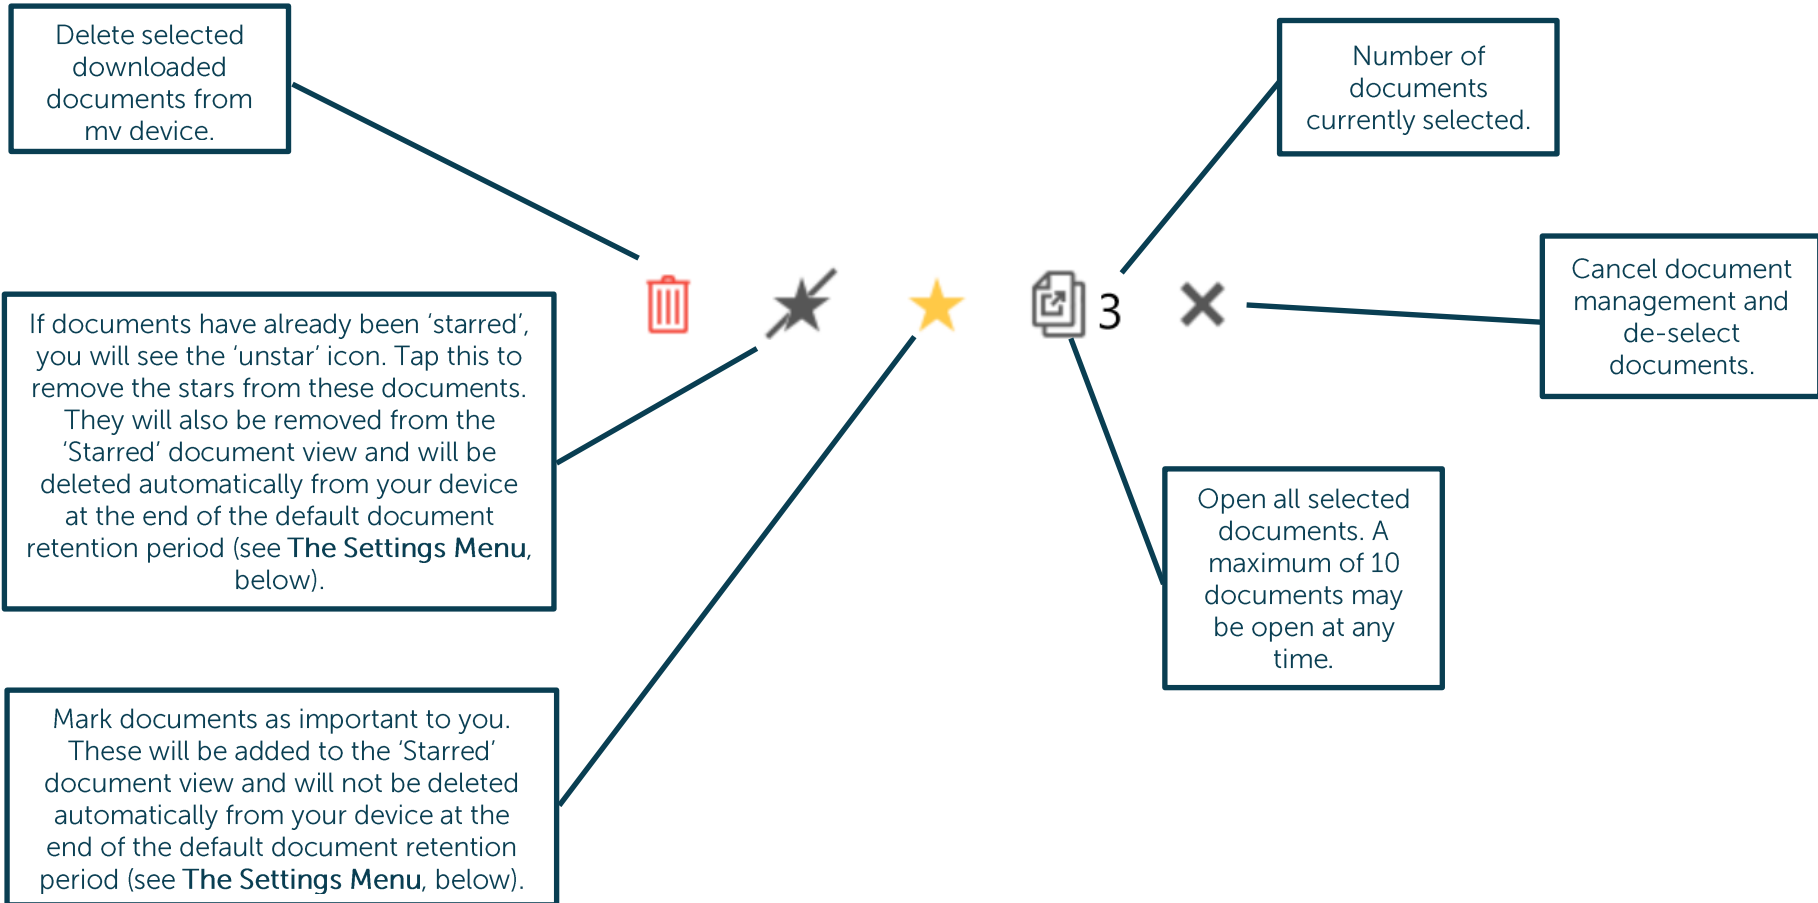

The screenshot displays the CIVICA app interface for 'South Cambs'. On the left is a navigation menu with categories like 'Upcoming', 'Recently Opened', 'Recently Published', 'Unread', 'Starred', and 'Annotated'. The main area shows a list of meeting documents, each with a document icon, a title, a date, and a count. A hand icon is shown tapping the document icon for 'Civic Affairs Committee - Tuesday, 4 June 2019 10.00 a.m.'. A callout box on the right explains that tapping or clicking the meeting details bar expands or collapses the list of documents. Another callout box on the left explains that selected documents have a check mark. A third callout box at the bottom left explains that tapping or clicking the document icon selects documents from any committee or the web library.

Selected documents have a check mark.

Tap or click the meeting details bar to expand or collapse the list of documents. Set your default display preference (expand all / collapse all) in The Settings Menu.

Tap or click the icon to select documents from any committee, and the web library.

Restricted App Registration Process

If your organisation has purchased the restricted version of the app, it will be able to make internal or confidential documents available to certain users. (If you haven't done so already, install the Modern•Gov app as explained above in [Getting Started](#).) **We recommend that you close the app before proceeding with registration.**

Due to the requirement of the app being able to read restricted documents while being offline, there is a possibility that access to the restricted document could be gained from a stolen device. To do so would not be trivial and precautions are in place to mitigate this risk; however, to reduce the risk further, we strongly recommend that:

- (a) a Mobile Device Management (MDM) system is used in conjunction with app's own security; and
- (b) your device requires you to enter a password to unlock or re-open Windows after the screen saver has activated.

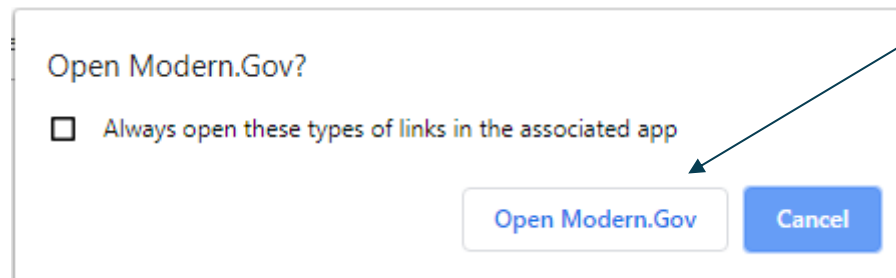

Your organisation will contact you directly with your logon details, and, if in use at your organisation, information on its MDM system.

You will receive an email inviting you to:

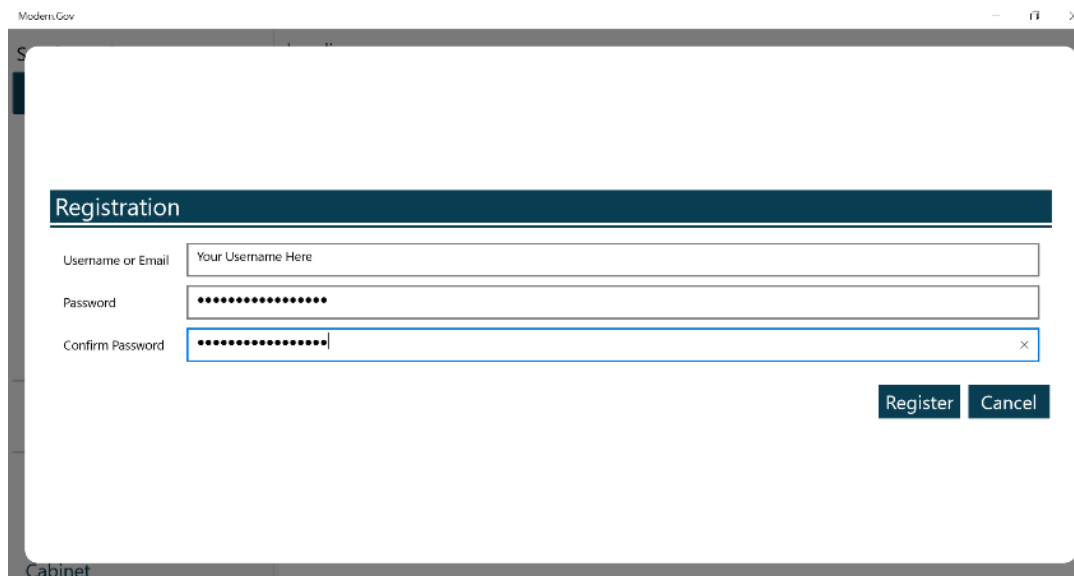

[Register this device](#)

Now, open the email on the device with the **Modern•Gov** app installed and tap or click the link in the email.

Your default web browser will open and you will be asked to **confirm** that you want to open the Modern•Gov app – tap or click **Open Modern.Gov**.

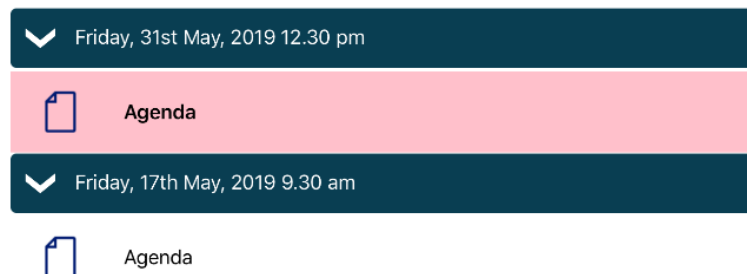

The app will open and invite you to complete the registration process with the logon details provided by your organisation:

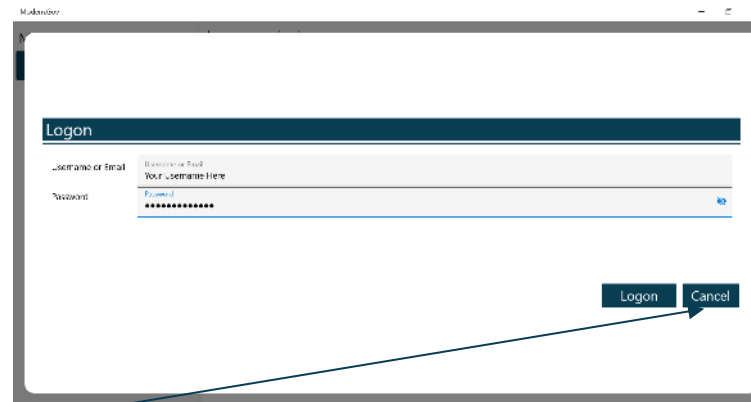

You will then be registered to open, read and annotate documents with restricted access which have been published since registering. You will not be able to share restricted documents, nor will you be able to open them in other apps. In-app voting will also be enabled if your organisation has purchased this feature.

Which documents you see will depend upon the access permissions granted by your organisation.

Documents with restricted access appear in menus with a pink background (the documents themselves are not pink):

When you next open the ModernGov app you will be prompted to login:

(If you select **Cancel**, you can still use the app, but will have access only to publicly-available documents from public organisations.)

If you have subscribed to an organisation with restricted access, it will appear with a pink background when you access Switch between your organisations from **The Settings Menu**:

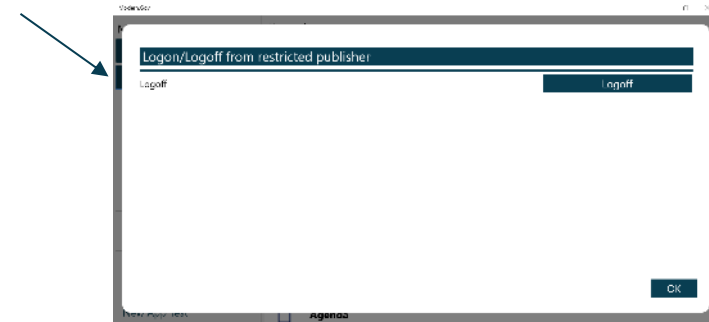

Logon and Logoff options in the Settings Menu

To access, tap or click the Settings icon at the top right of the home screen (main  menu):

If you are not logged in, there will be an option to Logon:

If you are already logged in, the option will switch to Logoff:

The app will also logoff users automatically when the app has been closed, when the device's screen saver has activated due to inactivity, or when the app has been open but has not registered any activity for two hours.

In-App Voting

In-app voting was introduced in the spring of 2020. Planned recorded votes set up in Issue Manager before the meeting now appear in the app, and additional recorded votes can be created in-app if requested during the meeting. Users with administrative rights will be able to start and stop votes during the meeting.

Vote details from the app, whether for planned or ad hoc recorded votes, will sync automatically with Issue Manager for merging into minutes. They will also appear on the website if you have this feature enabled.

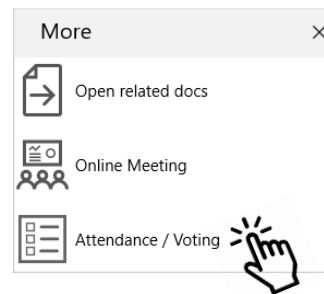

This feature is available only on the restricted version of the Modern.Gov app because the system needs to know the user's identity to check their eligibility to vote. Public app users will not see any changes to their app's appearance or functionality.

Please refer to [Recorded Voting Online Help](#) for guidance on system parameters to assign administration features and casting vote options to specific users, and the Recorded Vote features in Issue Manager, minutes templates, extracts and on the web. Please do not go into the Recorded Vote tab in Issue Manager while In-App Voting has a vote in progress.

To access from the Document Viewer Toolbar, **tap or click the More** button:

Tap or click the **Attendance / Voting** option:

From any screen, **tap or click the Close** button at the bottom right to return to the agenda pack:

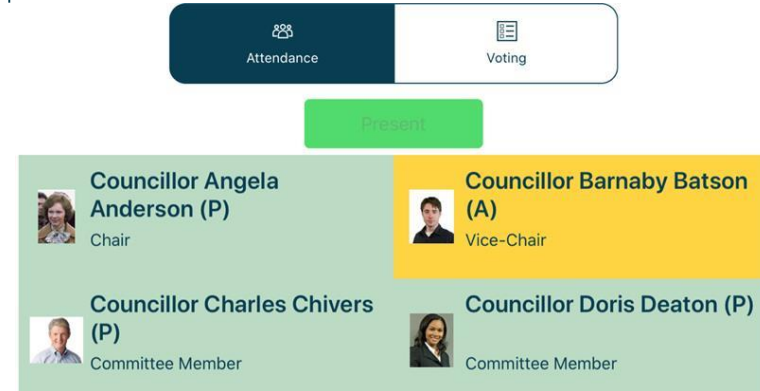

Committee Members

Committee members will see two buttons, one for attendance and one for voting.

Tap Attendance (left button), then the Attend button to record your presence:

The attendance list below will update automatically as attendees confirm their presence:

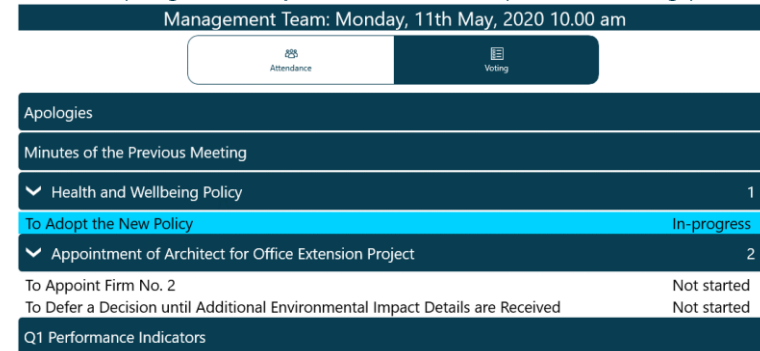

(Apologies previously received and entered by the meeting administrator display on an amber background.)

Tap Voting (right button) to access the vote list, which displays the list of agenda items and votes to be held:

When the Chair calls for a vote, the item will be highlighted and its status updated to "In progress". Tap on that row to open the voting panel.

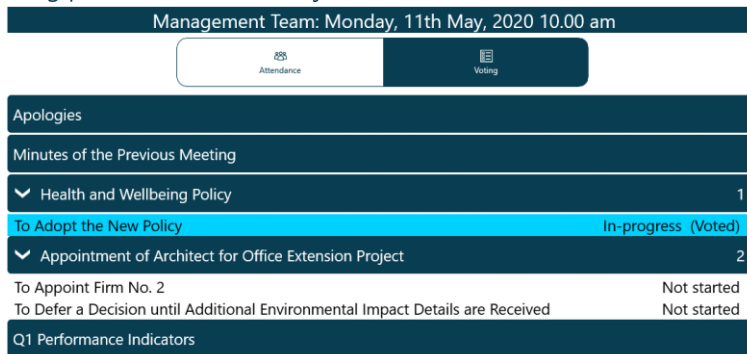

Make a selection from the available options, then **Confirm**:

Your selection displays. **Confirm** to proceed or **Cancel** to return to the options and make a different selection:

The voting panel indicates that your vote has been received:

When the Chair ends the vote, the voting panel will update with the result:

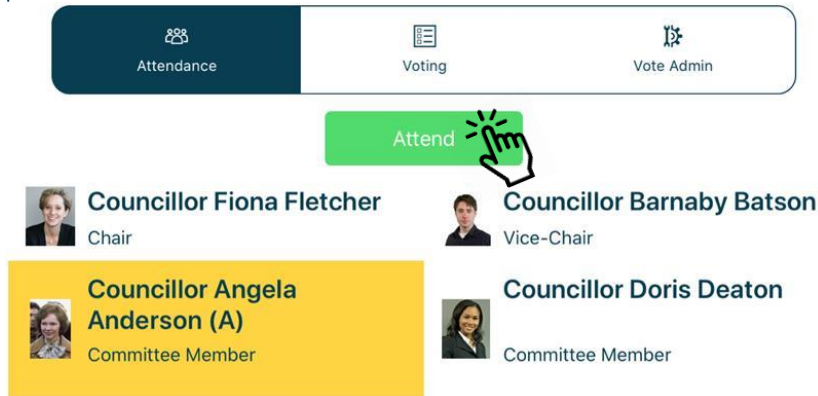

Voting Administrators and Casting Votes

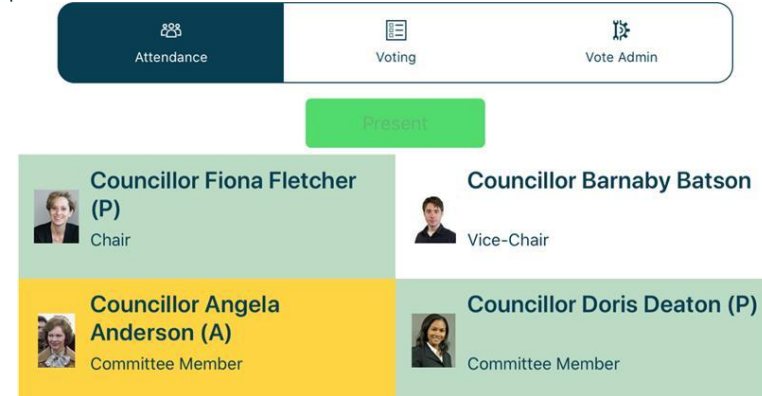

Getting started

Administrators will see three buttons, one for attendance, one for voting and one for administering votes (including making a casting vote in the event of a draw).

Tap Attendance (left button), then the Attend button to record your presence:

The attendance list below will update automatically as attendees confirm their presence:

(Apologies previously received and entered into Issue Manager display on an amber background.)

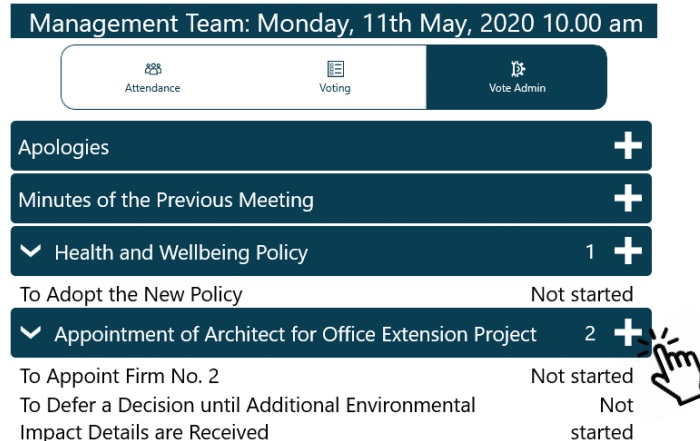

Tap Voting (middle button) to access the vote list, which displays the list of agenda items and votes to be held:

(If you are eligible to vote in a meeting, return to this screen after starting the vote, then follow the instructions for voters.)

Adding more votes

To add more votes, tap + next to the agenda item name:

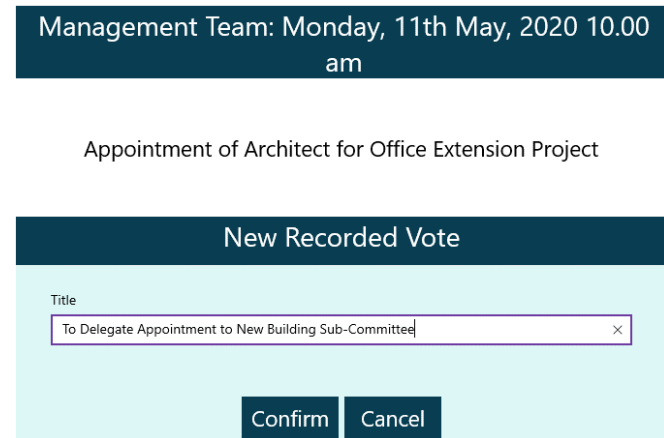

Tap Vote Admin (right button) to access administration options, which shows the voting list in the same order that voters see:

The votes displayed initially will be those created in Issue Manager before the meeting.

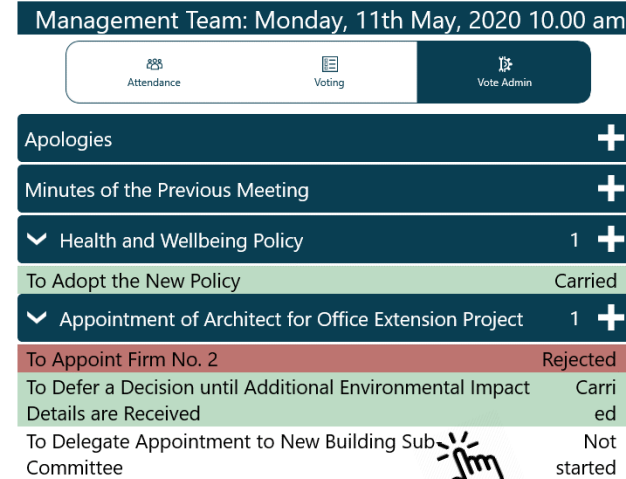

The Ad Hoc Vote panel opens. Add details and Confirm, or Cancel to exit without creating a new vote:

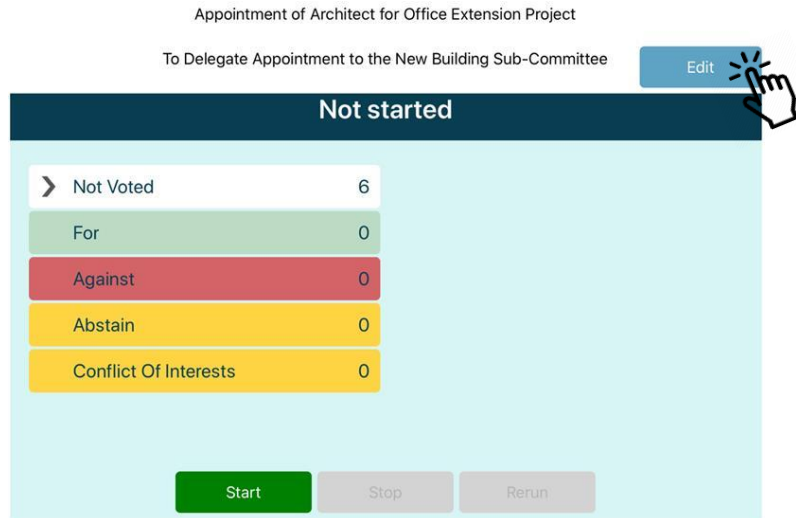

Confirm again to proceed or **Cancel** to return and make changes:

Once confirmed, the vote appears in the voting list. To edit or delete the new vote, **tap** the title to open it:

Edit to amend the title or delete the ad hoc vote:

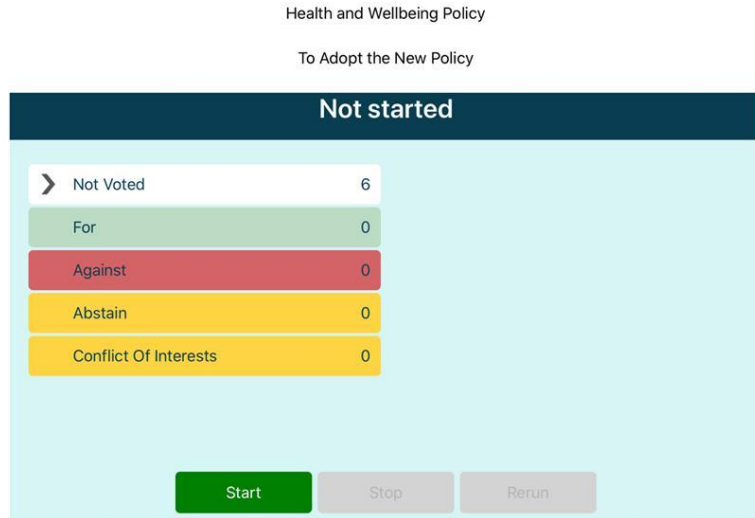

Amend the title and **Confirm**, **Cancel** to return without saving changes, or **Delete** the vote entirely:

Running a vote

To start voting on an item **tap** the item name and the screen will change to:

Start updates the status on all apps to "In progress", and voters can now cast their votes. **Tap** on > to see live results as votes are cast.

If you are eligible to vote, Close this screen from the bottom right...

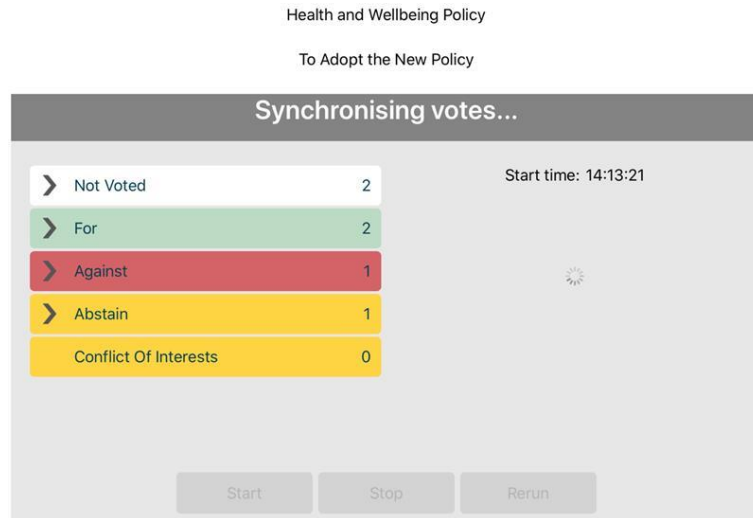

...and return to the **Voting** menu (second button) to select the item, and cast your vote:

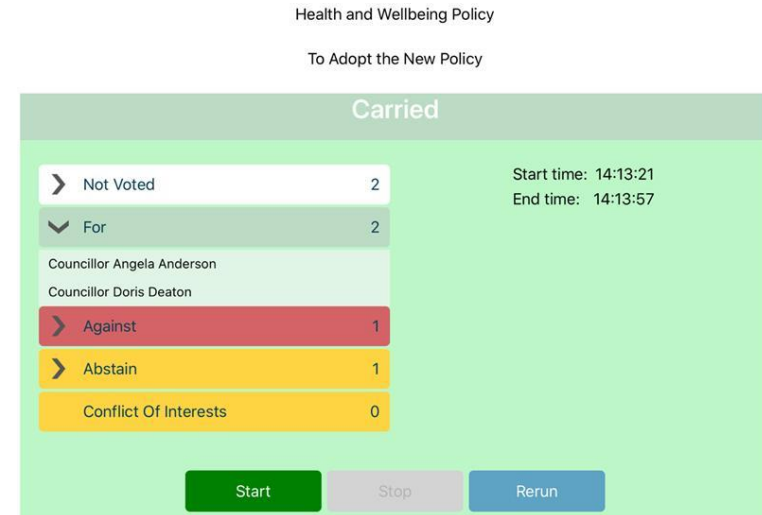

Then return to the Vote Admin screen (third button) and select the item to resume administration of the vote:

When the vote has finished, **tap** the Stop button. The results will synchronise:

The outcome will be displayed. **Tap** on > to expand the lists of who cast which votes, or who didn't vote.

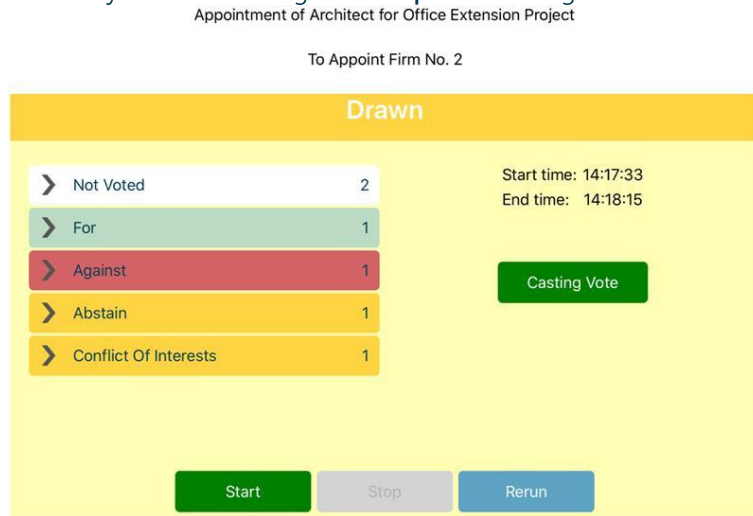

If stopped prematurely, **Start** allows you to resume the vote, *retaining* the results already recorded.

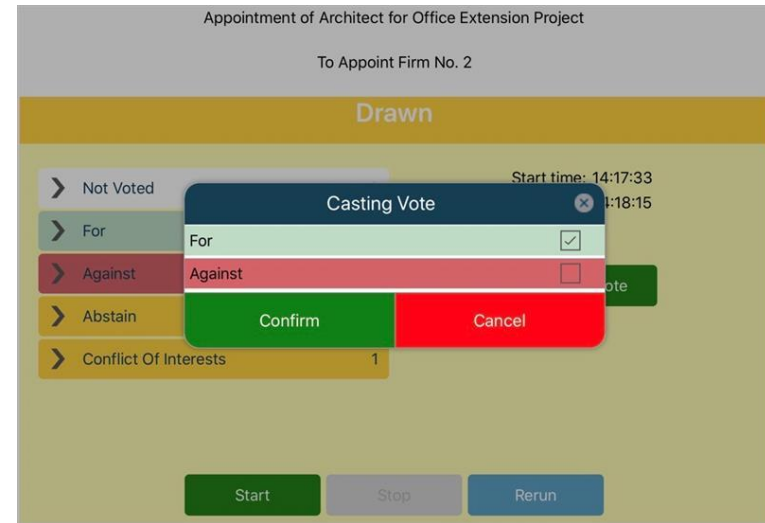

If necessary, **Rerun** will *nullify* all results, allowing the vote to begin afresh.

Casting Votes

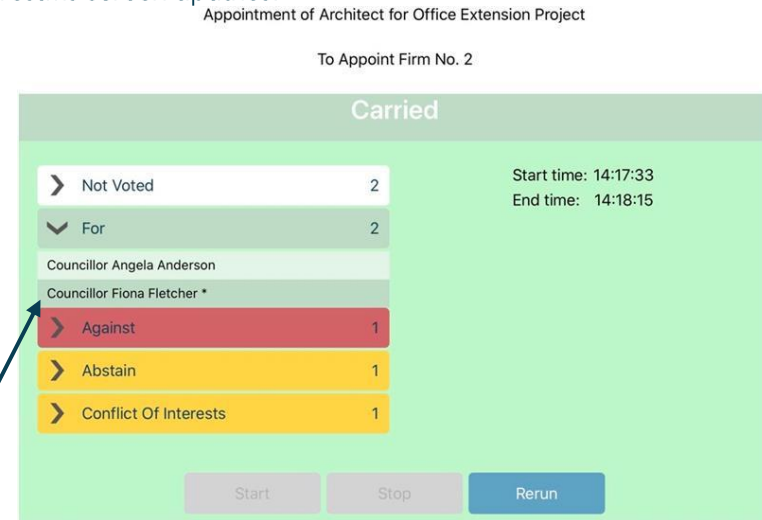

In the event of a draw, the Casting Vote option becomes available to users who may make a casting vote. Tap the Casting Vote button:

Make the Casting Vote and tap Confirm:

Confirm the selection or Cancel to return and make a different selection: The results screen updates:

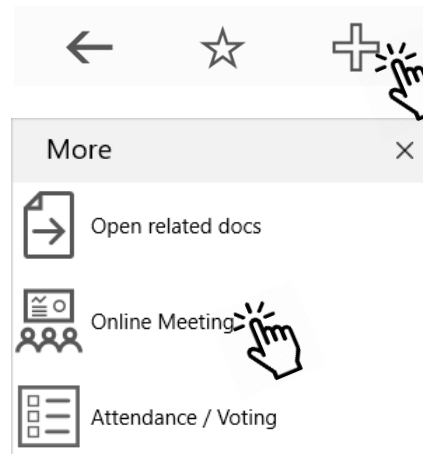

Tap the > to see all the voters for each outcome. The casting vote will be indicated by a * and a darker background.

Online Meeting (Microsoft Teams)

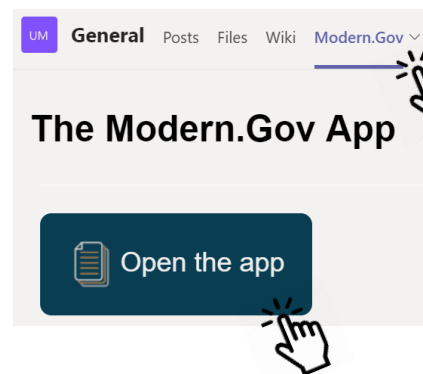

Restricted app and In-App Voting module required.

Microsoft Teams must be installed and configured on your device to use this feature.

If your organisation uses Microsoft Teams for online meetings, switch quickly between the agenda and Teams:

Your organisation's administrators will set up Microsoft Teams with a reciprocal link from the Teams meeting back to Modern.Gov:

Quick switching between Modern.Gov and other online meeting applications

We know that not everyone uses Microsoft Teams for their online meetings.

To see and switch quickly between open apps on your **Windows 10** device:

1. Select the Task View button () in your task bar, or
2. Press the Alt and Tab keys at the same time to see or switch between open apps.

To use two or more open apps at a time:

1. Grab the top of an app window and drag it to one side of the screen.
2. Choose another app from those displayed and it will snap into place automatically.

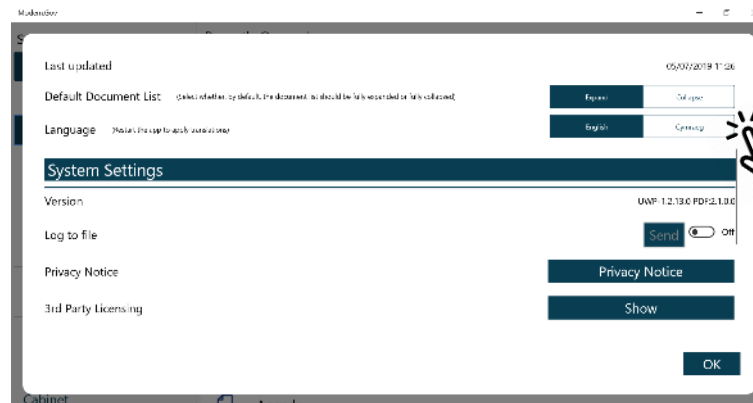

This method also works for switching between Modern.Gov and Microsoft Teams without using the Online Meetings link.

Welsh Language Version

A Welsh-language version of the app is available. You will need to have the Windows Welsh language pack installed on your device before installing the app.

Important note: documents published to the Modern•Gov app will still appear in the language in which they were originally published. If they were originally published in English, they will still appear in English.

To change the app's default language from English to Welsh, open the **Settings** menu and **tap or click** Cymraeg in the Language section, then **tap or click** OK.

Restart the app and Welsh will be the default language.
