SHEFFIELD HEALTH AND WELLBEING BOARD PAPER

Report of: Jeremy Wight, Director of Public Health

Date: 27 June 2013

Subject: Joint Strategic Needs Assessment for Sheffield (2013)

Author of Report: James Henderson, Director of Policy, Performance and Communications
0114 203 0239

Summary:

This is the final version of the JSNA for Sheffield. It assesses the current and future health and wellbeing needs of the Sheffield population. Its key aim is to provide an evidence base for the Joint Health and Wellbeing Strategy.

Questions for the Health and Wellbeing Board:

The Board is asked to identify any final corrections or amendments prior to publication of the document on the SCC website at www.sheffield.gov.uk/jsna in July 2013.

Recommendations:

To agree the final version of the JSNA, subject to any final corrections or amendments and to request an update on the JSNA work programme to a future meeting of the Board.

Reasons for Recommendations:

(Reports should include a statement of the reasons for the decisions proposed)
Production, publication and maintenance of a JSNA complies with requirements of the Health and Social Care Act (2012).

Background Papers: The JSNA for Sheffield 2013 (V16.0)

The Joint Strategic Needs Assessment for Sheffield (2013)

1.0 SUMMARY

1.1 This is the first Joint Strategic Needs Assessment (JSNA) for Sheffield developed under the Health and Social Care Act (2012). It assesses the current and future health and wellbeing needs of the Sheffield population. Its key aim is to provide an evidence base for the Joint Health and Wellbeing Strategy for Sheffield.

2.0 WHAT DOES THIS MEAN FOR SHEFFIELD PEOPLE?

2.1 The JSNA is the means by which the health and wellbeing needs of the local population are assessed. It has been developed to identify the key priorities for improving health and wellbeing in the City and in so doing, to inform the development of Sheffield's Health and Wellbeing Strategy and thus shape commissioning plans for health and wellbeing services.

3.0 ABOUT THE SHEFFIELD JSNA

3.1 Our starting point for the JSNA was to bring together as wide an evidence base as possible. This has involved analysing traditional sources of evidence, such as population statistics, performance data and academic research, with what we term 'voice' evidence. This has involved working with a wide range of partners and stakeholders across the public, private and voluntary sectors, including four JSNA events held January to March 2013.

3.2 The information obtained from this process has been synthesised to provide intelligence about health and wellbeing needs in Sheffield. Within the document, this intelligence has been organised around the Health and Wellbeing Strategy outcomes. Specifically it is structured around the following four chapters:

- Chapter 1 analyses the wider determinants of health and wellbeing including factors such as employment, education, housing, crime and environment.
- Chapter 2 focuses on mortality and morbidity and examines life expectancy, causes of premature death, infant mortality, long term limiting illness and disability, healthy lifestyles and mental health and wellbeing.
- Chapter 3 looks at geographical health inequalities in terms of life expectancy, mortality and morbidity, deprivation and services.
- Chapter 4 covers health, housing, children's, social care and voluntary sector services. It considers service demand, experience and how services will need to change in the future.

3.3 In each chapter, the key findings of our assessment are presented together with areas where we need to further develop our knowledge of the issue. In addition, three top priorities per chapter are identified. These have been selected on the strength of the evidence of need and the key themes to emerge from the JSNA events held earlier in the year. All twelve priorities are summarised in the document as the executive summary.

3.4 The JSNA is not a static document and we will therefore be reviewing and updating the evidence on an on-going basis. To this end, we will develop a forward work plan, to cover the next 12-18 months. This will include the additional assessment work required to help fill the current gaps in our knowledge.

4.0 QUESTIONS FOR THE BOARD

4.1 The document will be designed as a pdf so that it is suitable for publication. It will be published in July 2013 on the Council's website at www.sheffield.gov.uk/jsna. As such, the Board is asked to identify any final corrections or amendments during the meeting.

5.0 RECOMMENDATIONS

5.1 To agree the final version of the JSNA for Sheffield (2013) subject to any final corrections or amendments.

5.2 To request an update on the JSNA forward work plan to a future meeting of the Board.

6.0 REASONS FOR THE RECOMMENDATIONS

6.1 Production, publication and maintenance of a JSNA complies with the requirements of the Health and Social Care Act (2012).

James Henderson
Director of Policy, Performance and Communications
Sheffield City Council
